## DESCRIPTION AND AIM

The EPITA Board is proud to announce the 8<sup>th</sup> EPITA Symposium & 37<sup>th</sup> AIDPIT Workshop that will take place in Igls\_Innsbruck from the 21<sup>st</sup> to the 23<sup>rd</sup> of January 2018. During the past years, the EPITA Symposia had the pleasure to enjoy a number of exceptional invited speakers, excellent oral presentations and passionate discussions. The 2018 edition promises to continue the tradition.

The appointment in Innsbruck is a recognized successful and lively forum where young and more experienced people meet, discuss and trigger further developments in islet and pancreas transplantation. In addition for 2018, the ESOT section of EPITA & AIDPIT will offer to participants education grants for the best presentations (oral and poster), to support education and participation of young investigators to this important appointment.

You are most welcome to join the meeting in Innsbruck, to present your latest scientific results, network with your peers and to enjoy the learning experience in an informal and familiar environment.

## TARGET AUDIENCE

Transplant physicians, surgeons and diabetologists. Experienced senior physicians and younger physicians interested in cutting edge research results and methods.

## SCIENTIFIC TOPICS

### SUNDAY 21<sup>st</sup> JANUARY, 2018

- ▶ New developments in glucose sensors
- ▶ Mixed and virtual reality in medicine

### MONDAY 22<sup>nd</sup> JANUARY, 2018

#### PANCREAS

- ▶ Assessing patients for pancreas transplant
- ▶ Pancreas transplantation in C-peptide positive patients Islets

#### ISLETS

- ▶ Tailoring islet isolation to the donor pancreas
- ▶ Shipping islets - Challenges in running an islet transplantation network
- ▶ Automation of islets isolation and quality control assessment

#### PRO/CON DEBATE

- ▶ SPK transplantation has no survival benefit over living donor kidney transplantation alone

### TUESDAY 23<sup>rd</sup> JANUARY, 2018

#### YOUNG INVESTIGATOR WORKSHOPS

- ▶ Pancreas discussion tables: My worst case
- ▶ Islets discussion tables topics: Troubleshooting in islet isolation

#### TECHNOLOGY SESSION

- ▶ Anti-hyperglycemic therapy after islet transplantation
- ▶ Insulin delivery in the artificial pancreas

#### PRESIDENTIAL DEBATE

- ▶ Expanding the indications for islet autotransplantation
- ▶ Immunosuppressive-free beta-cell transplantation

## CALL FOR ABSTRACT

Abstract Submission Opening: **September 1, 2017**

Abstract Submission Closing: **October 20, 2017**

Visit [www.esot.org](http://www.esot.org) for more informations about categories, submission and reviewing process

## INTERNATIONAL YOUNG INVESTIGATOR PRIZES

**Best Oral Presentations**

**Best Poster Presentations**
